Michael Kittel

Computer scientist & designer

Computer science graduate with a design background, based in Barcelona. I design and build interactive things – interfaces, games, audio tools and generative art – and enjoy the space where visual design meets code.

Portfolio itsmikato.github.io

GitHub github.com/itsmikato

skills

Code Python, C++, TypeScript, JavaScript, React / Next.js, HTML & CSS, GDScript, Git

ML & data PyTorch, experiment design, data analysis and visualisation

Creative p5.js, Godot 4, JUCE (audio plugins), Blender incl. Python scripting

Design Illustrator, InDesign, prototyping, design thinking, visual communication, typography

projects

Zodiac · 2026, in progress

Monster-collecting video game with real-time combat and a cut-paper look. Creatures are modelled, rigged and animated by script.

Godot 4, GDScript, Blender, Python

Pitch Coach · 2026

Singing-trainer plugin: tracks the voice in real time against a guide melody and sums up each take in statistics panels.

C++, JUCE, AU / VST3

Symbios · 2026

Synthesizer plugin with three oscillators, ladder filter, envelopes, LFO and reverb; interface coloured by signal path.

C++, JUCE, AU / VST3

Nudibranch · 2025

Interactive generative animation from a single drawing. A first version used a neural network to learn frames between two poses.

p5.js, Python, PyTorch, Illustrator

Portfolio website · 2026

Designed and built from scratch: own visual identity, live interactive pieces, shop, SEO and responsive layout.

Next.js, TypeScript, CSS · itsmikato.github.io

Twinne · 2022, team project

Magnetic two-part coat hanger with recycled climbing rope – prototyping, workshop production, branding and film.

Product design, FH Münster

languages

German Native

English Fluent – years of daily use abroad (B2 school certificate)

Spanish Very good – used daily in Barcelona (B1 certificate)

Catalan B1 certificate – currently studying for B2

education

B.Sc. Computer Science
University of Münster, Germany ·2022 – 2026
Thesis: *Geometric Differences in Activation Regions of MLPs under Different Loss Functions* – experiments on how loss function, network depth and dataset shape the geometry of ReLU networks (Python, PyTorch).

Erasmus Year – Computer Science & Psychology
Universitat de Barcelona (UB), Spain ·2024 – 2025

Design Studies (Product Design), 4 semesters
FH Münster – Münster School of Design, Germany ·2021 – 2023
Product design, design thinking, prototyping and visual communication; team projects Twinne and Cyclos (pop-up book).

B.Eng. Civil Engineering (Structural Engineering)
FH Münster – University of Applied Sciences, Germany ·2017 – 2019
Final grade 1.8. Structural design in concrete, steel and timber.

Abitur
Rabanus-Maurus-Gymnasium, Mainz, Germany ·2016

experience

Restaurant Manager
Elbén Purpose Project ·01/2021 – 04/2021
Led daily operations, supervised staff, planned schedules and kept service standards.

Hospitality
Barcelona & Münster ·2020 – 2026
Barkeeper at Bar L'Amistat, Gràcia (2026); barista, waiter and kitchen at Café Im Viertel (2024), Café fam and Il Pizzaiolo, Münster (2020). Fast-paced teamwork and daily guest contact in Spanish, English and German.
